

**HS-PUA-A300 belongs to discharge paste , it is can be used in white discharge printing for deep-color fabric**

## TYPICAL PROPERTIES

Solids	40±1 %
PH	7.5-8.0
Viscosity at 25°C.	40000-50000 cps.

## TYPICAL FILM PROPERTIES

Appearance (20°C)	Milk white liquid
Solubility	Cold water easy dilution
Mesh	32-60T

## STORAGE AND SAFETY

HS-PUA-A300 should be stored in a tightly closed container at room temperature and protected from temperatures below 5°C. As with most emulsions, care should be taken not to expose HS-PUA-A300 to temperatures nearing 0°C., since this may affect the product beyond recovery.

Generally accepted safety precautions for the utilization of industrial coatings should be employed, including a suitable ventilation and the use of mask when spraying the product.
